

TUITION & TRAINING CENTRES

One syllabus for every intake.

Turn your centre’s best lessons into a course learners can take online or alongside tuition. Weekday and weekend tutors can use the same materials, and families come back to an academy that carries your centre’s name.

PROFESSIONAL PLAN AT A GLANCE

200 GB
file storage

Unlimited
courses

1,000
monthly active learners

5 published academies • 5 administrator seats • Free Creator Launchpad workshops

Run a course across classes

Start with a subject you teach every term. Give each tutor a common sequence and the freedom to adapt what happens in class.

ACADEMY FEATURE	HOW YOU CAN USE IT
Course builder & media	Keep the model lesson, recording and printable exercise together so each group starts with the same material.
Academy branding & links	Share your centre's course with families who ask for an online option when a class is full.
Learner access	Enrol self-paced learners and classroom students in the course they have signed up for.
Quizzes & assignments	Give both groups the same short task. A cover tutor can see what students have been asked to practise.
Discussions & Q&A	Students can compare answers with classmates and ask a tutor about a difficult exercise between sessions.
Progress reporting	Review progress before the next class and use teaching time for the topics that need another explanation.

Your centre sets the fee

Offer online access separately or include it in your tuition fee. Families pay your centre directly. Your platform subscription is separate.

What the plan includes

Academy capacity	5 published academies, 5 administrator seats and up to 1,000 unique monthly active learners.
Courses & storage	Unlimited courses and 200 GB of file storage.
Reporting & support	Enhanced progress reporting and priority support.
Learning paths	Multi-course certification learning paths and academy-branded course certificates.

Professional suits a teaching team running several subjects or academy brands. Five administrator seats give more than one person room to manage the work.

LEARNER VIEW

My Learning

Students open the course to replay a model dialogue, find the worksheet and return to an unfinished exercise.

Desktop & Tablet	Open lessons and assessments in a browser.
PWA	Install the web app for access from the home screen.
Mobile App	Revisit supported text, audio and resources offline. Hosted video generally needs an internet connection.

One English lesson, two timetables

A language centre teaches adults how to change an appointment by phone. The lead tutor records a model call and adds a listening quiz and a short writing task.

Online enrolment

A shift worker buys the self-paced course directly from the centre. She can replay the call after work and post the phrase she finds difficult.

Hybrid tuition

The Saturday group listens before class. Their tutor uses the session for paired calls, then asks each student to write a confirmation.

IN THE COURSE DISCUSSION

Learner	“Does ‘move it forward’ mean earlier or later?”
Classmate	“I’d repeat the day and time so we both know.”
Tutor	“Try ‘Could we meet on Friday at ten instead?’ Then ask the other person to confirm.”

When a cover tutor takes Saturday’s group, the same dialogue and written task give them a clear place to start.

See how it fits your programme

Bring one syllabus and the timetables of two groups that use it.
